

MRI Technician Position

02/10/2023

Job description

Founded in 2003, as an independent diagnostic testing company, NDS Wellness has become the fastest growing provider in the metropolitan Detroit and tri-county area. We are a multi-specialty group specializing in cardiology, neurology, and radiology testing services to primary care practices. NDS Wellness consists of board-certified physicians and a qualified staff that have more than twenty-five years of experience in testing, screening and allied medical services. We provide the highest level of diagnostic testing that offers convenience and the reliability physicians require for their patients.

NDS Wellness has an exciting opportunity for MRI Techs in Novi. We are looking for a skilled and dedicated MRI technician to be responsible for providing clear images to Physicians through MRI scanning. The MRI technician's responsibilities include following Physicians' instructions, explaining the MRI procedure to patients, selecting software options and imaging parameters on the MRI machine, viewing images from the imaging session, and keeping records of reports.

To be a successful MRI technician, you should have strong communication and interpersonal skills, and be sensitive to the needs of the patients. You should show attention to detail, and be able to work in a team.

Required experience/skills:

- 3 years of experience required.
- Completion of a recognized educational program in Diagnostic Radiology or Magnetic Resonance Imaging is required.
- Registered by the American Registry of Radiologic Technologists (ARRT) in Magnetic Resonance Technology (MR). Must maintain continuing education credits to maintain ARRT registration.
- Must possess and maintain BLS certification.
- Knowledge of or experience with GE platform.
- Strong customer service skills and the ability to work well in a team environment.
- Must be able to lift 30 lbs and assist in helping patients onto the MRI table.

Preferred experience/skills:
